Press release 1

Kick-off meeting

Date: 12th-13th of December 2022

Location: Kraków, Poland

Add a short description of the TPM (half page), what happened, what we discussed, and up to 4 photos. At the end of the press release please include the website for the readers to visit our website and also our social media.

During the first transnational partner meeting in Krakow in December, we had the opportunity to get to know each other. The consortium working on the project consists of seven organizations from six different countries, Poland, Italy, Serbia, Bulgaria, Slovenia and Cyprus. Not everyone had the opportunity to work together before, so representatives of each partner organization gave presentations about their organizations and what they do on a daily basis and what methods they use while working with seniors. Later we talked about the project and its general assumptions. We also discussed formal issues related to partners agreement, finances and reporting. However, we spent the most time talking about the products of the project that we want to develop within it. One of them is an e-learning training program for educators and trainers working with seniors, and the other is a platform with a set of tools and good practices for involving seniors in civic participation. On the second day of the meeting, the hosts from the Map of Passions Foundation invited their guests from other countries to participate in the Quest around Krakow's Old Town, presenting in practice a method that they sometimes use in their work with seniors. It was a very productive time.
